

MONES, JOHN DAVE M.

SECURITY ANALYST

PROFILE

I have a strong background in cybersecurity, specializing in programming, data management, SIEM, and mobile security. I'm skilled at detecting system weaknesses, enhancing defenses, and maintaining secure operations across various platforms.

I offer excellent leadership, analytical, and communication abilities, with experience in incident response and team collaboration. My adaptability helps me adjust to emerging technologies and challenges while ensuring systems remain secure and efficient.

WORK EXPERIENCE

- | | |
|---|------------------------|
| Chief Information Security Officer | JULY 2034 - JAN 2040 |
| NVIDIA | |
| As a Chief Information Security Officer (CISO), I lead the organization's cybersecurity strategy, ensuring the protection of data, systems, and digital assets. I oversee risk management, policy development, and compliance with security regulations. I collaborate with executives and technical teams to align security initiatives with business objectives. Through strategic leadership and adaptability, I build a strong security culture and drive continuous improvement in cyber resilience. | |
| Cybersecurity Manager | APRIL 2030 - JUNE 2034 |
| Microsoft | |
| As a Cybersecurity Manager, I lead efforts to protect systems, networks, and data from security threats. I oversee risk assessments, incident response, and the implementation of security policies and best practices. I manage teams using SIEM tools and ensure compliance with organizational and industry standards. With strong leadership and adaptability, I drive a secure and resilient digital environment. | |

ACHIEVEMENTS

- was recognized as the **CISO of the year** by Cyber Security Excellence Award
- Information Security Leadership Award**
